

FAITH EXPERIENCE RODRIGO ROGATTO
CRYSTAL LAKE – IOWA JULY 20, 2019

Hello, my name is Rodrigo Oliveira Rogatto, I have been a Johrei member for 3 1/2 years and I am from Santos / SP, more precisely from Johrei Center Ponta da Praia. A year ago I had the mission to come and live in the United States (July 2018), and since the beginning of May 2019 I have been living with a Brazilian host family who welcomed me to a city called Crystal Lake, Iowa, in the vicinity of Chicago.

Since I arrived at my new family's house, in addition to channeling self-Johrei to me every day as I would always do, I try to share the power of the Divine Light with them and I used to channel johrei to my "host mother", called Monica, and share also my faith with the results of Johrei. One day her son, Joao Pedro fell ill. What will follow is the faith experience of Monica, who is not a Johrei member of our Church, but places much faith in Johrei and our teachings. I am very happy to be one of the pioneers in this region to be spreading the power of Johrei and Meishu-sama's Teachings. July 20, 2019.

* * *

Hello, my name is Monica Elisei and I would like to leave here my faith experience about the Johrei channeled by Rodrigo Rogatto in my son João Pedro (20 years old):

My son, João Pedro, called me at 5:20 in the morning complaining of a severe pain in the right arm and in the chest. I got up scared, because he never gets sick and hardly complains of any pain.

He cried, felt his arm and chest burn, he said that the pain was very strong, he was dizzy and wanting to vomit because of the pain; I started to press his arm and chest with my fingertips to see where it hurt (I thought of muscle pain, some nerve or bone, maybe he could have knocked or slept on his arm), but he did not feel any pain when I squeezed.

I was desperate, gave the highest (and allowed) dosage of Ibuprofen, gave the medicine for gases, measured the sugar, the temperature, checked the pressure and the heart beat rate. Everything was normal, but the pain did not decrease.

I made him some tea, I settled him on the couch and covered him. He began to fall asleep, and then I took him to my bed.

He slept, but was restless, and woke up at 1:00 in the afternoon. When he woke up, the pain was unbearable: I thought the worst, so I called my husband and asked him to come home and take our son to the emergency.

In the meantime I was talking to Luzia, the mother of Rodrigo, on her cell phone (I in Iowa and she, in Brazil), when she told me to ask Rodrigo to channel Johrei in João Pedro.

And so it was done, Joao Pedro had come down, back on the couch, waiting for his father to arrive, and at that moment Rodrigo began to channel Johrei to my son.

While Rodrigo channeled Johrei, I went to the supermarket to buy Gatorade for my son, since the pain was intense and he could not eat anything. When I returned, my son was standing, without any pain,

feeling very good to the point of taking a bath, eating and getting ready to go out with friends.

I knew the healing had been done through Rodrigo's hands!

I was moved and thanked him; soon after, I made a point of thanking Luzia, because besides trusting me, letting her son spend some months living with me and my family, she presented us with Rodrigo, and I said to her: "Rodrigo is a boy of Light!"

Rodrigo channeled Johrei to me a couple of times when I had not felt well, but my pain was emotional rather than physical, and I believe that all people emanate energy, good or bad, and that can heal people using good energy - Light; I believe that God is present in this moment through these people.

Whenever I receive Johrei, I feel at peace and be able to quiet my mind!

I am Catholic, I have faith, respect and accept all religions, I believe in the power of goodness and after this experience with Rodrigo, my faith has only strengthened!
